## Summary

Full-Stack Developer and a 3rd-year B.Tech student (6th semester) at IIIT Vadodara, with expertise in React.js, JavaScript, HTML, CSS, and API integration. Experienced in building responsive web applications with user-friendly interfaces. Currently learning Express.js and MongoDB to enhance backend development skills. Looking for opportunities in Frontend Development to contribute to innovative projects.

---

## Education

### **Indian Institute of Information Technology Vadodara,Gujarat**

B.Tech in Computer Science  
(Expected Graduation: 2026)

- Current CPI: 6.4

### **SHRI BAJPAI CONVENT HIGHER SECONDARY SCHOOL,GHATABILLOD ,DHAR,MP**

SENIOR SECONDARY EDUCATION (2021)

- PERCENTAGE: 72%

---

## Projects

### **Pixabay Image Search Website ([Live Click here](#))**

- Developed an image search application using React.js, HTML, CSS, and JavaScript.
- Integrated Pixabay API to fetch and display images based on user queries.
- Features: Category-based search, responsive design, and a user-friendly interface.

### **Railway Management System ([Github](#))**

- Designed a CRUD-based system for managing railway data using React.js (frontend) and MySQL (backend).
- Features: User-friendly data management, search filters, and seamless CRUD operations.
- Collaborated with team members, improving teamwork and database management skills.

### **ListenUp Web Player ([Live Click here](#))**

- Built a music player with HTML, CSS, and JavaScript, featuring search and playback functionality.
- Focused on a modern, user-friendly interface. The player is live.

### **Weather Forecasting System ([Github](#))**

- Created a weather app with React.js and OpenWeather API for real-time updates and a 5-day forecast. The app is live.

### **Google Bard Clone ([Live Click here](#))**

- Built a Google Bard clone with local storage to save and delete search history and data. The project is live.

---

## Technical Skill

- **Programming Languages:** HTML, CSS, JavaScript, Python, Java, C, SQL
- **Frameworks & Libraries:** React.js, Redux, Tailwind CSS, Bootstrap, Express.js (Basic), Node.js (Basic)
- **Tools & Platforms:** Git, GitHub, Postman, Figma, Excel
- **Core Concepts:** Web Development, Data Structures and Algorithms

---

## Achievements

- Chess Champion: Secured 1st place in school chess competitions during classes 9th, 10th, and 11th
